As the IRA march through the streets of London, gloating over their bombings...
ONLY THE NF TURNED OUT TO PROTEST

AN EFFIGY OF an IRA terrorist was hung from a gallows by National Front demonstrators near Speakers' Corner in London's Hyde Park on Sunday 2nd February.

The NF demonstration was called to protest at the pro-IRA Bloody Sunday march organised by the Labour Party supported Irish Freedom Movement. Marchers from nearly every political organisation 'on the Left' joined together with representatives from the Ethnic Minorities and no-nonsense IRA supporters to make their way from Hyde Park to Kilburn.

JAPS GET ORDER

BRITISH Nuclear Fuels, a state-owned firm has given a £10 million ship-building contract to Japan.

British Shipbuilders believe the ship, the Pacific Pintail, was given to Mitsubishi because their offer was subsidised by cheap finance in Tokyo.

Mr. Jim McFall, a leader of the boilermakers' union said the deal was an outrage at a time when our shipbuilding industry is fighting for its life.

CITY SINKS TIN

BUYING and selling on the international money markets has brought about a crisis that threatens the Cornish Tin Industry.

Profiteering by the City's wideboys caused the collapse of the World's tin trade and the closure of tin mines such as Geevor at St. Just in West Cornwall.

370 workers at the mine have been laid off and new head gear on the Allen shaft at Botallack lies rusting and unused.

Chants of IRA rang out through the streets of London, while one section of the march joined in ritual cheering as a youth in dark glasses and a black beret called out such names as the 'Brighton Bomb', 'the Harrods Bomb', Airey Neave and Robert Bradford.

PROVOCATION

Under such provocation it was hardly surprising that 15 National Front members were arrested trying to breach the police cordon protecting the march to show their disgust at this sickening gloating by the IRA over their murdered victims in a city that has suffered numerous outrages at the hands of these vicious terrorists.

More than half those arrested were released without being charged which was a welcome change of attitude by the Police. At a previous anti-IRA demonstration at Jubilee Gardens by City Hall, 29 NF members were arrested and charged with numerous ridiculous offences. Charges that in many cases were thrown out when the cases came to court.

MAIN OFFENDER

The main offender of the afternoon was the IRA effigy itself. Hoisted as the IRA marchers came by, the balaclava-helmeted dummy was caught by a gust of wind and careered into a line of policemen knocking their helmets off. This led to the effigy and its minder being promptly led away by two bare-headed bobbies only to be released later without being charged.

The National Front demonstration was a great success. More than 500 members and supporters crowded into Tyburn Way, by Marble Arch, at 1.00 p.m. together with Union Jacks, placards, banners, and loud-

hailers to continue a relentless chant of 'Smash the IRA' till the marchers passed by just after 2.00p.m.

Half an hour later after discussion with senior police chiefs, the National Front managed to negotiate a march down Oxford Street to Central Hall in Great Russell Street where an indoor rally took place.

At the Central Hall an enthusiastic audience heard National Front speakers denounce the IRA and the Anglo-Irish Accord.

David Gobell, Organiser of Havering NF, chaired the meeting and took great pleasure in introducing the first speaker, Jim Morrison, the Chairman of Belfast National Front.

Jim Morrison said that the day had been another victory for the National Front over those who support the murder and brutality of the IRA. "It is only the National Front who organise every year to make sure that these murdering bastards don't march on the streets of Britain unopposed".

REMINDED

Deputy Chairman of the National Front, Nick Griffin, reminded the meeting that the last time the IRA had been in Hyde Park they had blown up the bandstand, butchering British bands and their horses. Nick Griffin went on to outline how the National Front was making the British people aware of the loyalty and patriotism of the people of Ulster and conducting its

own campaign against the supporters of the IRA on the mainland.

National Front Chairman, Martin Wingfield, was the final speaker of the afternoon. He told those present that Mrs Thatcher was deceiving the British people over her intentions in Ulster,

"Deceiving is second nature to Mrs Thatcher, just as she deceived the British people in 1979 by saying she 'understood the fears of being swamped by coloured immigration' she is now deceiving the British people over her intentions in Northern Ireland."

The Anglo-Irish Accord has nothing to do with 'unacceptable levels of violence'. The Anglo-Irish Accord is a concoction thought up by Washington, Dublin and Westminster designed to put into motion a process that will lead to the surrender of Ulster to the South.

The Iron Lady has no intention of defeating the IRA and its allies".

The meeting ended with a collection and a 'Roll of Honour' of those groups and branches who had made special efforts to ensure a big turnout for the demonstration being read out by Directorate member John Field.

Generous applause was given to members from Belfast, Newcastle, Birmingham, Preston and Manchester, while new branches who received a special mention for their efforts in supporting the demonstration were Liverpool, Reading and Epping.

PROMINENT

Despite a television blackout (both ITV and BBC preferred to show a football match between Derry City and police from Southern Ireland) many thousands of people saw the National Front demonstration due to its prominent position by Marble Arch.

Our opposition to the IRA must give comfort to the patriotic people of Ulster in showing them that both in Ulster and on the mainland the National Front is prepared to stand up and speak out on their behalf.

Issue No.75.

FRONT STAND ALONE

White Pride Black Pride

RACIAL prejudice among Black and White teenagers is showing an "alarming growth".

The survey in the *New Society* magazine of 20th February reveals that two-in-five White teenagers admit being prejudiced against people of other races and prejudice amongst West Indians is as high as among Whites.

The survey says that open prejudice seems to be becoming more acceptable.

£150M GRAIN STORE

BRITAIN'S grain mountain stands at 7 million tonnes. It costs £150 million a year to store.

Despite this Britain will import another 3 million tonnes of wheat at a cost of £200 million.

Such a waste of food and such a waste of money is the price Britain has to pay for being a member of the Common Market.

P.O.Box 230, Worthing, Sussex BN14 8EG.

NAILING THE MEDIA LIES

With 1986 only eight weeks old we have already seen attacks on the National Front in *Time Out*, *The Observer* and the *Yorkshire Post*. Attacks which seek to blacken the name of the National Front and set the British people against us.

NF Chairman, Martin Wingfield, set the record straight once and for all in a facts sheet sent to the leader of the House of Commons, John Biffen. Excerpts from the facts sheet are printed below.

1) — The National Front is recruiting members for the Ulster Defence Association.

The National Front is not recruiting for the U.D.A. We have our own National Front branches in Ulster at Belfast and Coleraine.

In the *Guardian* of 18th February, a spokesman for the U.D.A. said that recruitment literature was sent to its members in Leeds, Liverpool, Manchester and Scotland. Mr. Andy Tyrie of the U.D.A. said "People recruiting for us go wherever they can to get the leaflets out".

It is possible that some members of the National Front hold dual membership with that of the U.D.A. The U.D.A. is a legal organisation which has offices just off the Newingtons Rd, in Belfast. The U.D.A. is not a proscribed organisation by the National Front.

I have spoken at 15 National Front meetings up and down the country this year. I have never seen a U.D.A. recruiting leaflet.

The National Front does sell copies of the U.I.S.'s very good magazine *Ulster*. We also sell the *Ulster Sentinel* from the Independent Unionist Association and also *Ulster: The Facts* from the Democratic Unionist Party.

2) — The National Front is run by and/or influenced by and/or has links with Italian Terrorists.

The National Front is led by an 18-man National Directorate which is elected by the membership of the National Front. All members of the Directorate are British. The day to day running of the party is by an Executive Council which is elected by the members of the Directorate. All members of the Executive Council are British.

I have been a member of the National Front for ten years, a member of the Directorate of four years, and on the Executive Council for two years. In all this time I have never met an Italian in connection with the party or with party business.

3) — The National Front is responsible for organising and/or promoting racial attacks on individuals from the Ethnic Minorities.

The National Front does not promote racial hatred. The National Front promotes respect of different races for each other. The National Front believes in *White Pride* just as the West Indians and Africans believe in *Black Pride*. Since the end of last year the National Front has been in contact with numerous Associations which represent the Ethnic Minorities asking for the opportunity to explain our policies to them.

Racial Attacks are the symptoms of a sick society. Perpetrated by frustrated British youngsters with no future looking for scapegoats. In areas where there are well

organised National Front branches the number of racial attacks are insignificant. This is because the National Front channels any frustration that members might feel into leafletting, posterizing and electioneering to bring about the policies of the NF which would return all coloured immigrants to the land of their ethnic origin.

Any National Front member found involved in racial attacks would be suspended from the party. He would face a disciplinary inquiry and if found guilty of the offence would be expelled from the party.

A Lawful Political Party

4) — The National Front has given up on its policy of fighting elections and has changed itself into a "terrorist" organisation.

The National Front is a lawful, law-abiding political party dedicated to fighting elections and gaining power through the ballot box. Up and down the country the National Front will be contesting council elections this May and at the General Election the party is confident of putting up 60+ candidates possibly more if the growth of the party continues at its present rate. This will be no mean achievement considering that the party fought the same number in 1983 and since that time the election deposit has trebled.

Every Saturday NF members can be seen selling newspapers and handing out leaflets in High Streets all over Britain. Is this the actions of members of a "terrorist" organisation.

The National Front has invested thousands of pounds in its own printing operation. Is that the action of a "terrorist" organisation?

The National Front has just installed a new computer in its Administration Office. Is that the action of a "terrorist" organisation?

The National Front has just paid off a massive back-tax debt to the Inland Revenue dating back over ten years! Is that the action of a new leadership bent on taking the National Front down the road to "terrorism"?

5) — The National Front is involved in organising soccer violence.

Justice Popplewell last month

thanked the National Front for its help in his inquiry into soccer violence. The report acknowledged that NF members sold papers outside the football grounds but said that the NF was not involved in organising soccer violence. The report printed the findings of Liverpool Police which stated "There is no evidence whatsoever that the National Front or any of its members were involved in the events at the Heysel Stadium".

6) — The National Front is an anti-democratic Nazi and/or Fascist Party.

The National Front is a democratic political party with a constitution. It holds elections to the Governing Directorate every year and elections to the Chairmanship every two years.

The National Front is a Distributist Party, believing in the concept of widely distributed ownership of property. Consequently we are opposed to both Communism and Capitalism because they both lead to ownership and control by the few.

The National Front is a Distributist Party, believing in the concept of widely distributed ownership of property. Consequently we are opposed to both Communism and Capitalism because they both lead to ownership and control by the few.

Why the smears?

The question in everyone's mind now is of course why should the *Yorkshire Post*, for four days, print unfounded allegations against the National Front without seeking to get comment from the National Front locally or nationally?

It was after three days of allegations that I telephoned the *Yorkshire Post* and asked to be able to answer their allegations. They said they would give me an interview so I went up to Leeds, at my own expense, and gave a two and a half hour interview. Two minutes of that interview were printed and then my words were twisted and taken out of context. Why?

The answer can be found in N.U.J. guidelines adopted in 1978. These guidelines state:—

- i) That journalists should do their best not to report the activities of the NF where possible, and that where they do have to report them, the reports should be as small as possible and always accompanied by lengthy reaction from opponents of the NF.
- ii) While journalists should try not to report the activities of the NF, they should regularly produce articles "exposing" and attacking the party.
- iii) The quotations of NF officials should not be reported in a straightforward manner.
- iv) If any editor attempts to change articles then industrial action should be taken.

It makes sinister reading doesn't it? This proves that lies about the National Front can not only be published in newspapers but are also encouraged to be done so.

General Election Campaign Trail

CONSTITUENCY NO. 1. HOVE, SUSSEX.

IT WAS THE election-minded National Front branches in Sussex that were the first to get some of their General Election candidates adopted. First by a hair's breadth was veteran National Front campaigner, Ted Budden who was adopted as prospective National Front parliamentary candidate for Hove at the monthly meeting of Brighton National Front branch on February 20th.

The National Front did not fight

Hove at the last General Election, but in 1979 they polled 508 votes (1.2%) the third highest NF vote in Sussex. Ted Budden's nomination was proposed by Ivor Bridgeland who headed a vociferous lobby supporting Mr. Budden's adoption. Hove has seen a welcome surge in National Front recruitment over the past two years and local activists are certain that they can give their candidate a professional and effective campaign.

Labour warn of NF growth

PROSPECTIVE LABOUR parliamentary candidate for Lancaster, Joseph Gallagher has given up attacking the Tories to concentrate on warning voters in his constituency of the growth of the National Front in his area.

At a specially convened meeting Labour Party officials announced that there was intense National Front activity in Garstang, Coketham and Bilsborrow. The Labour prospective candidate told the *Lancashire Evening Post*,

"It seems the NF are deliberately

targeting Garstang there have been leaflets given out combating drug abuse and promoting co-operatives. This is all very worrying".

Garstang Youth Officer, Nick Piela, told the meeting that youth workers had seen patriotic tendencies among the youngsters at the clubs with some claiming NF membership, while deputy head of Garstang High School said there had been instances of NF leaflets being distributed outside the school grounds over the last few months.

Preston gains new members

THE FIRST street sale of National Front literature for six years took place in Preston last month reflecting the growth of the NF in this area.

While in nearby Kirkham paper sales and leafletting have been producing new members for the Preston Branch.

The Front's Blackpool area Chairman, Mr. Wilfred Smith, told the *Lytham, St Annes and Kirkham Citizen* "The policies of the National Front appear to be very popular in Kirkham, with young folk in particular, eager to hear our message."

NATIONAL FRONT

by JIM MORRISON, Chairman Belfast NF

LOOKING AFTER OUR PEOPLE.

WE WILL maintain all Social Services which guarantee the unemployed, the low paid and the elderly a better standard of living. We are opposed to the linking of benefits/supplements to means testing or the privatising of Government agencies responsible for the provision of goods and services to which claimants are entitled.

The NF will stop the DHSS victimising and publicly humiliating individuals who have infringed Social Security Regulations, particularly since no comparable attempts have been made to curb large-scale company fraud and tax evasion.

We will make local authorities eradicate low pay and poor working conditions by monitoring the performance of firms and businesses.

The NF will scrap useless Youth Training Schemes, as these are only an attempt — by the Tories — to disguise rocketing unemployment among those under 25.

The National Health Service should be absolutely free. We are not opposed to individuals paying for private treatment, but such treatment should not be available in buildings provided for NHS patients nor divert resources or specialist staff away from the State service.

We would restrict abortion to instances where conception results from rape and when medical advice indicates that it is desirable to preserve the life of the mother.

We consider the addition of fluoride to public water supplies to be a disturbing form of mass medication and a grave erosion of individual freedom.

HOUSING.

THE NATIONAL FRONT is committed to encouraging home ownership as its main housing policy. However, at present, with high unemployment and hardship this will not be possible, and there will be a demand for Housing Executive accommodation for some time to come.

We therefore believe that the Executive should redevelop and rehabilitate existing areas to preserve community spirit and local identity.

Residents should have a greater say in the type of housing they wish to have.

Tower blocks and 'Orlitt'-type homes are a degrading and socially unacceptable form of housing.

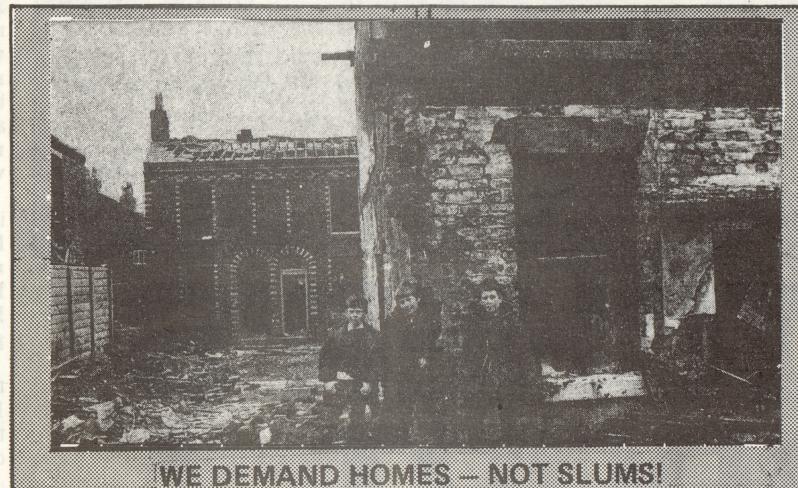

We consider co-ownership schemes implemented by locally-based Ulster Housing Associations and self-build projects as making a welcome contribution to home ownership and one which offers

a particularly attractive investment for first-time buyers.

ENERGY

A WIDE range of energy sources is vital to enable industry to utilise the form most suited to its needs.

The NF would end the monopolistic nature of the companies who control the importation and distri-

WE DEMAND HOMES — NOT SLUMS!

bution of virtually all of Ulster's coal and bottled gas supplies.

We would exploit Ulster's lignite deposits. However, this will be brought under public control to ensure that the revenue raised is returned to Ulster's economy, rather than to a clique of foreign shareholders.

TRANSPORT FOR THE FUTURE

PASSENGER TRANSPORT will be regarded as a vital public service. It should be relieved of the requirement to make an operating profit.

We oppose all attempts to privatise the Ulster bus service, as this would lead to a further deterioration in

the quality of service and a curtailment of routes in rural districts.

We would develop the idea of community transport along the lines of the co-operatively-structured 'Mutual Associations' which provide services in north Belfast and between Belfast and Newtownabbey.

Reproduced from the IRA's paper *An Phoblacht*, this cartoon says it all. Loyalists have been led along the garden path by politicians who have grown fat on sectarian hatred and religious bigotry. The people of Ulster should sweep away the politicians and declare UDI. This way they can have real control over their lives and destiny.

IRA Victims — Remember Them This Way....

THE IRA has been killing innocent people for years. But what has the Government done to combat the IRA's programme of Red Terror? In a word: NOTHING!

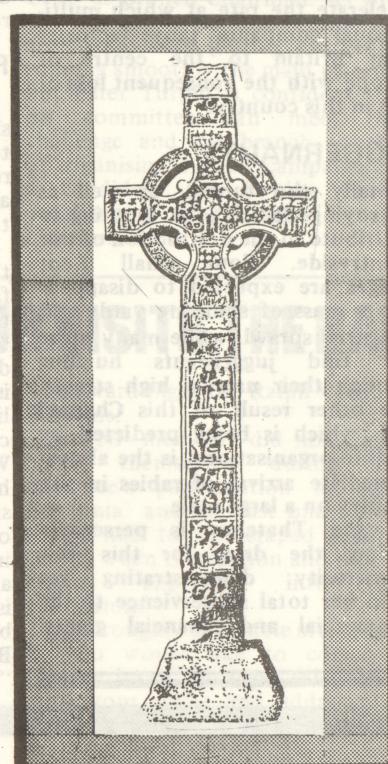

They have sat idly by whilst our racial brothers and sisters in Ulster have faced bombings, shootings, death and destruction. They have also sat idly by whilst the Mainland has been bombed.

VICTIMS

If the Tories can't — or won't — smash the IRA, then the least they can do is remember their victims! Therefore, the National Front has repeatedly demanded that Thatcher & Co. build a monument in memory of all those killed by the Communist IRA.

DEDICATED

This monument should be dedicated to Protestant, Catholic, Soldier, Civilian, Briton and Irishman. Additionally, we believe that

this monument should be erected in front of the Houses of Parliament.

PEACE

This monument will not only honour the IRA's victims — it will also mark a turning point. Because from every war there must come a peace. But peace in Ulster will only come once the IRA is smashed!

When this is done, we can build an Ulster on the firm foundations of National Freedom and Social Justice. An Ulster safe in the British Family of Nations — within a Europe of the Peoples!

DEMAND

But first, we reiterate our demand that Thatcher builds this monument. If you agree with us, then write to your MP asking them to support our demand.

And remember, if the Tories refuse our demand, then the National Front will do the job itself — no matter how long it takes!

FIGHT * BACK

READERS of our sister magazine *Nationalism Today* will know that it has just raised £500 to help the National Front step up the propaganda war.

Originally we intended to bring out a broadsheet style *British Ulsterman*. But really we'd only have been preaching to the converted — those who already support the Loyalist Cause.

Therefore we've produced a slip-sheet style *British Ulsterman* for this issue of *National Front News*. This way we can reach thousands upon thousands of Britons.

It also means that NF units can sell what is effectively a 10 page *NF News*. Or they can sell *British Ulsterman* separately at its cover price of 5p. Alternately, it can be handed out free of charge.

With this issue of *British Ulsterman* the National Front is effectively spearheading the Loyalist *Operation UK* — the scheme whereby the Mainland is saturated with Loyalist propaganda.

But producing just one issue of *British Ulsterman* is not enough. We need to produce another issue as soon as possible. And to do that will cost £200.

To save time, effort and money, the Nationalist Welfare Association has offered to administer the funding of the *British Ulsterman* slip-sheet.

All Patriots who support our fellow Britons in Ulster should use the form to send in their donations. **ULSTER'S FIGHT IS BRITAIN'S FIGHT — SMASH THE IRA!**

THE LINKS between Immigrant groups and the IRA are well known. So let's turn their Black fist into the White Power fist of the National Front.

Donate today!

DONATE TODAY....

PLEASE find enclosed a donation of £ . p to help produce a *British Ulsterman* slip-sheet for *National Front News*. (All donations will be gratefully received. All donations will be acknowledged).

**IAN
ANDERSON
takes a look at
last month's
Common
Market news**

DANES VOTE ON E.E.C. FUTURE

ONE European nation, besides Britain, where the people are fed up with the Common Market is Denmark. However in contrast to Britain the latest "reform package" of the E.E.C. has been vociferously opposed.

EXTRA POWERS

What is in this reform package that has caused such an outcry? Firstly extra powers are being given to the European Parliament, powers which undermine the independence of member nations. Secondly the foreign policies of member nations are to be "co-ordinated" which would certainly have caused Britain severe difficulties over the Falkland Islands when Spain and Italy openly backed Argentina. Thirdly "standardisation of environmental legislation" means, to Denmark, a lowering of safeguards.

The Danes are a fiercely patriotic people who have had to struggle for 400 years to maintain their independence. National pride is so strong that most Danes have flag poles in their own gardens and the Danish flag is run up at regular intervals. A bit different from Britain - I can't imagine too many residents in Brixton running up the Union Jack on a flag pole in their garden.

TEN TIMES

However before we start applauding the decision to hold a referendum on Denmark's membership of the Common Market, we should remember what happened in our country. The pro-marketeers were able to spend ten times the amount spent by the anti-marketeers and while every opinion poll before and after the campaign showed the British people opposed to the Common Market, the referendum vote was in favour - to the everlasting shame of the British people.

UNDERLINE

It should however give us heart that one nation is actively fighting for its right to determine its own future. Just one nation withdrawing from the Common Market would be a victory and would undermine the credibility of that organisation. Whether or not that nation will be Denmark is doubtful but possible. Polling day in the 27th February.

On February 27th Denmark voted to stay in the Common Market and accept the "reform package". The voting was 57% for and 43% against.

Part of Europe-but....

THE National Front believes that the nations of Europe have much in common - our cultural heritage is similar, our racial inheritance is similar and our customs and tastes have much in common. Consequently we believe that the nations of Europe should co-operate and that the hand of friendship should be extended between the peoples of Europe.

However we also recognise that there are differences as well and that each nation should remain separate and sovereign, determining its own future and viewing other European nations with mutual respect.

The European Economic

Community is an artificial structure which denies people sovereignty over their own affairs and which seeks to destroy cultural differences within Europe to replace them with a drab uniformity where local pride is completely extinguished.

CONSISTENTLY

For these and other reasons the National Front has always opposed Britain's membership of the E.E.C. and we are the only political movement to consistently warn of the dangers of membership: the destruction of national sovereignty, the elimination of national

cultures and the loss of jobs and industry.

Only the National Front has pointed out that the removal of tariff barriers would automatically lead to industry moving to the centre of Europe leaving Britain as a desolate offshore island.

The National Front will take Britain out of the Common Market but we still recognise that we are part of Europe. Only when European nations regain their identity and their sovereignty will we be able to treat each other with the mutual respect that would be beneficial to all and destructive of none.

Spain bars British Cars

LAND ROVER, JAGUAR, AUSTIN, DAIMLER, LOTUS - names that are famous worldwide would all disappear if the Government gets its way. The great British bankruptcy auction is in full swing, and it is being conducted in the most outrageous, double-dealing way imaginable.

The man conducting this charade is Paul Channon, the Trade and Industry Secretary and the replacement of the infamous Leon Brittan. However Mr Channon appears to have learnt a few tricks from his predecessor.

On 6th February he announced that the talks of the sale of Austin-Rover to Ford had been broken off to end "damaging uncertainty" over the company's future.

Paul Channon conducting the selling-off of Britain's car industry.

On 9th February he was reported as seeking an early meeting with the company management "to discuss the firm's future", and he is known to be keen on either a European or Japanese "solution" for Austin-Rover.

WHY NOT

One senior Government minister summed it up: "We cannot just put up a wall and keep the U.K. motor industry solely on its own".

But no one has explained why not!

Let's have a look at the E.E.C.'s newest member. As a member of the E.E.C. there are meant to be no barriers to trade between Spain and Britain. Yet in 1986 while Spain is expected to export 130,000 cars to Britain, they have set a limit of just 5,000 British cars which we would be allowed to export to Spain.

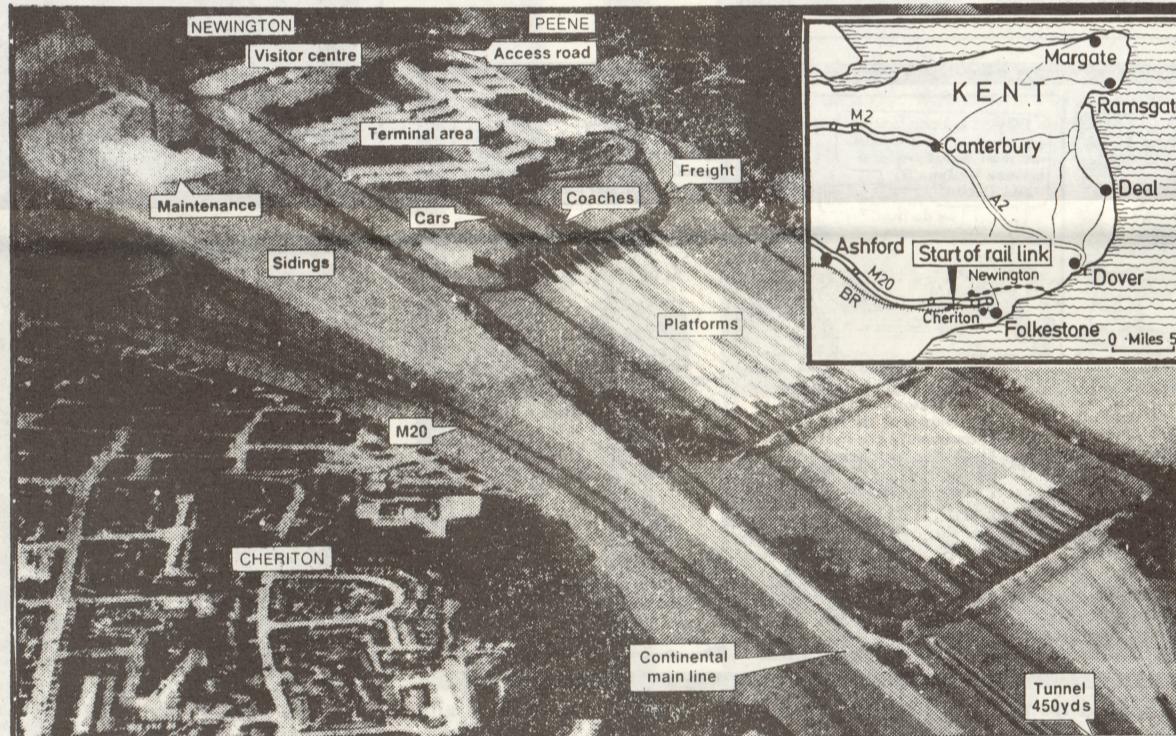

An Austin-Rover spokesman put the cost of this at 20,000 jobs. 13 Tory M.P.s wrote to Mr Channon and asked for this quota to be raised to 7,000 British cars.

REFUSE

The National Front has a much simpler proposal: that Spain refuses to import any British cars, we refuse to import any Spanish cars and 20,000 British people keep their jobs.

Of course this would be against the Common Market law which as far as we are concerned is just tough on the Common Market.

With all this high level intrigue, double-dealing and downright lying, is it any wonder that a recent headline in "The Times" read: "Morale crumbles in British car firms". Workers in British car factories can hardly be blamed for losing enthusiasm for their work when instead of enlarging and modernising on independent British motor industry, all the Government is interested in is flogging it off to the highest bidder. Meanwhile Tory "Golden Boy" Michael Heseltine talks about "caring capitalism".

IF you think that banks, multi-national companies and finance houses are about to put up £2.300 million to build a channel tunnel all so that you can have a cheaper holiday in Europe then you are wrong. But that is what the newspapers and television commentators have implied: - all these big firms are rushing to build this tunnel just so that you can get to France quickly and cheaply - always assuming you are one of the fortunate people who still have jobs and can afford a holiday.

While it is true that any form of Channel Tunnel would carry passengers, this is really only incidental to the real reason for building this enormously expensive tunnel. The real purpose of the tunnel is to provide an "import

highway" along which German, Italian and French goods would flood into Britain destroying yet more British industry and throwing thousands more onto the dole queues.

DIRECT EFFECT

The actual building of the tunnel will, of course, generate quite a lot of work but once the tunnel is completed the overall direct effect will be the loss of 3,000 jobs mainly in Kent as a result of lost port traffic. National Front News is also quite confident in predicting that, although the tunnel will link France and Britain, political pressure will be brought to contract out quite a lot of the construction work to other European countries.

There is also looming a major battle over whose trains are actually going to be used through the tunnel. The French rail company SNCF is pushing hard for the adoption of a design of train similar to its own high speed trains. British Rail is still saying that it will receive a share of this work.

CUT JOBS

However on 21st January B.R. announced that it is expecting to cut 12,000 jobs in its own workshops over the next two years -

hardly the action of a company expecting large new orders. Its credibility is not enhanced by the recent purchase of locomotives from abroad including four from the American Company Foster Yeoman. The Channel tunnel, this new "import highway" will accelerate the rate at which multi-national companies move factories from Britain to the centre of Europe with the consequent loss of jobs in this country.

JUGGERNAUTS

Finally the tunnel, as well as destroying British jobs, is going to contribute to the destruction of our countryside. Four small Kent villages are expected to disappear into a mass of shunting yards and industrial sprawl, while many more will find juggernauts hurtling through their narrow high streets. The other result of this Channel link, which is being predicted by wildlife organisations, is the almost immediate arrival of rabies in this country on a large scale.

Maggie Thatcher is personally leading the drive for this new monstrosity, demonstrating yet again her total subservience to the commercial and financial giants.

British Ulsterman

VICTORY

TO ULSTER!

ULSTER has always been a separate and distinct nation within the British Isles — or the British Family of Nations. And despite what Thatcher may think or do, Ulster will always remain part of the British Family of Nations.

But by signing the 'Anglo-Irish Agreement', the traitors at Westminster have effectively booted Ulster out of the Union.

So Ulster has to make a choice. Either Ulster is governed by direct rule from Westminster and Dublin — or Ulster is governed by Stormont. The first choice is not acceptable. The second choice means that Ulster will have to declare a Unilateral Declaration of Independence (UDI).

SURVIVE

If Ulster does declare UDI it will not be easy for her. But to *survive* Ulster has to declare UDI.

An Independent Ulster will have many problems to solve: Sectarian bigotry. Hatred. Violence. Unemployment. Bad housing. And, to cap it all, a Chinese Immigration problem.

To *survive* — and to solve all of its problems — Ulster will have to sweep away the old, failed, Establishment politicians. For instance, the so-called 'Loyalist' politicians who have grown fat on promoting bigotry.

POLITICIANS

So whilst Ulsterman has been fighting Ulsterman — whilst Protestant is fighting Catholic — the politicians have been able to sit back and do nothing. They've not had to bother about the squalor, injustice and social deprivation.

But also to *survive* Ulster has to take decisive action against the Marxist IRA. These are the scum who murder, bomb and maim. These are the scum who say that Protestants don't even belong in Ulster.

British Ulsterman believes that Ulster must survive. Therefore, *British Ulsterman* — the Voice of the National Front in Northern Ireland — believes that Ulster must declare UDI.

INDEPENDENCE!

To declare UDI is not to break the link with Britain. The historical, spiritual, racial and cultural link with Britain will exist forever. To declare UDI is to *survive* — and that must be Ulster's first job.

Many Catholics are proud to be Loyalist and radical Protestant Loyalists recognise this fact. To *survive*, Protestant and Catholic must stand together to smash the

IRA.

When Ulster declares UDI, the Establishment will pour scorn on Ulster. The Establishment will lie and twist the truth about Ulster. But history will show that the people of Ulster made the correct decision.

The National Front says:
INDEPENDENCE FOR ULSTER!

JOIN OUR STRUGGLE

The NF protesting against the Marxist IRA.

NATIONAL SOVEREIGNTY. Our country must be ruled by and for the people. We must withdraw from all international bodies, such as the EEC and United Nations, which seek to exercise control over our affairs.

We must have our own strong armed forces and keep out of other peoples' wars. Armed Neutrality Now!

SOCIAL JUSTICE. The economy must be run for the benefit of all our people, not the banks, multi-national companies and the wealthy few. We seek to build a system based on equality of opportunity, with rewards for hard work and merit, not unearned privilege.

Industry, trade and land holdings must be broken up into co-operatives, small businesses and family farms. Give all our people the chance to control their own lives and have a real stake in our country.

RACIAL IDENTITY. We believe that Race is the foundation stone of nationality. The cultures, customs and common values that make up our heritage are the product of the unique racial blend of closely related European tribes, fused together by time and history to form the Nations of the British Isles.

The Immigrant presence threatens to destroy our Race and withit the cultural heritage we hold dear.

We refuse to accept this slow murder of our Race and Nation. We call for the humane, compulsory repatriation of all Immigrants and their descendants. It's our country — we refuse to share it with aliens.

ULSTER SAYS NO.....

PART OF BRITAIN is being handed over to a hostile foreign Power in a secret sell-out deal. That is the truth behind Thatcher's 'Anglo-Irish Agreement'. And only the National Front – of all nationwide political movements – stands up for the Britons of Ulster. Britons who have always stood by the rest of us during hundreds of years of war and peace.

Under Thatcher's 'Agreement', British sovereignty has been handed over to a secretive 'Secretariat' jointly controlled by Whitehall and Dublin.

Today part of Britain is going to be governed not through open public debate and the ballot box, but by the secret discussions of unelected bureaucrats. And half of them are officials of a foreign Government!

IMPOSED

Neither the affected British people, nor their elected representatives, were consulted in any way before this 'Agreement' was imposed on them. And their decisive 'NO!' to the new set-up, delivered in a resounding vote in January, is to be ignored by Thatcher.

So, in a part of Britain, 'democracy' has given way to foreign tyranny. Our fellow-Britons in Ulster have been handed over – in secret and against their will – to a foreign Power.

The 'Iron Lady' refuses even to discuss sovereignty over the Falklands with Argentina. Yet she has handed over a half-share in sovereignty over five hundred times as many Britons, four hundred times nearer the rest of Britain, and boasted of her 'achievement' in doing it!

SHAMEFUL

Thanks to Thatcher, the people of Ulster are to have as much say in how, by whom, or even by what country, they are to be governed, as the people of Afghanistan or Poland.

This is Ulster's shameful reward for hundreds of years of loyalty to the Mainland. The descendants of the two thousand Ulstermen who died for us in a single day at the Somme have been stabbed in the back. Britons who stood with the rest of us in the darkest days of

Thatcher & the rest of Westminster have sold-out Ulster. Independence is the only answer.

1940 are now to live under the authority of a regime which sent official condolences to the Reich on the death of Hitler. The widows of British soldiers who fell in the Falklands are to be ruled by a Government which openly backed General Galtieri. The families of people murdered by the IRA are to live under the power of the State the IRA founded.

All the Establishment parties at Westminster have backed the betrayal of Ulster.

This comes as no surprise from a Labour Party which cheers the IRA killers it invites to address its meetings and refuses to allow anyone from Ulster even to join it.

BRITONS

The Britons of Ulster had thought better of their traditional Tory allies. But, like millions of other Britons who trusted Thatcher's promise to stop our land being "swamped" by Immigrants, they have been grossly betrayed by

the 'Iron Lady' and the clique of shady foreign spivs who surround her.

Today, only the National Front stands behind Ulster in her hour of need. Whatever allies 'across the

water' Ulster's Loyalists may have hoped for, we are the only friends Ulster has. We always were, though it has taken until now for this to become crystal clear to all.

TROUBLES

Ever since the 'Troubles' started – eighteen blood-soaked years ago – the NF has always stood by Ulster. And unlike Ulster's former Tory 'friends', we still do. Whilst the former 'Conservative and Unionist Party' plunges the knife into Ulster's back, thousands of National Front members stand ready to do their utmost for Ulster. Many a battered IRA supporter already knows this to their cost . . .

We alone are not party to the sell-out of our fellow countrymen. We alone will not see hundreds of years of unwavering loyalty be rewarded with carnal betrayal. To the people of Ulster, we in the National Front – your only friends – say this: **SMASH THE ANGLO-IRISH SELL-OUT!**

VICTORY TO ULSTER!

BELFAST NATIONAL FRONT is the most established unit of the NF in Ulster. The Branch holds regular monthly meetings. Here all NF publications – *National Front News*, *New Dawn*, *Nationalism Today* and *New Nation* – are sold to those in attendance. Monthly activities are planned, and local and national news is discussed.

Much of Belfast NF's recent work has gone into promoting sales of *National Front News*. During the middle of 1985, they quadrupled their order of the paper. At the beginning of 1986 they nearly doubled that order. By June of this year, Belfast NF reckon that their order for *NF News* will be well into three figures!

They aim to increase on this by doing extensive door-to-door sales in the city.

Jim Morrison and Andy McLorie are the principle motivators behind the success of Belfast NF. Jim attends to much of the units Secretarial work. And Andy does much of the Treasurers work.

Despite all the work they put into Belfast NF, Jim and Andy also maintain regular contact with members and supporters in Ballymena, Portadown, Lurgan and Larne. They are also making every effort to spread the NF's message to other towns.

If anybody would like to contact

NF ACTION!

Belfast NF – or send them a donation to aid their courageous work – please write to: Belfast National Front, P.O. Box 40, Belfast, BT7 1LY, Ulster.

LARNE NF

PROGRESS and organisation for the National Front continues to be made in Ulster. For the first time a meeting was held – late last year – to form Larne NF. And local NF members elected a Committee to run Larne NF.

Larne NF are looking forward to the future. Already they have been pleasantly surprised at the amount of local public interest and support for the NF in Larne.

Andy White leads the local Committee of Colin Masterson, D. Burney, P. Vanderlihd, K. Moore and P. Wilson. Special thanks are extended to Belfast NF for their help with the formation of Larne NF.

BALLYMENA SALES

IN early January, Belfast and Ballymena NF members held a paper sale at a march in Ballymena. Over 400 copies of *National Front News* were sold in a couple of hours.

This excellent activity gained great publicity for the NF in local Ballymena papers. A story – and photo – appeared in subsequent papers which acknowledged the great work the NF is doing in Ulster.

LURGAN EXPANDING

SUPPORT for the National Front is rapidly expanding. Local NF members have plans to establish a formal unit of the Party well underway.

Lurgan's population is split almost equally between Loyalists and Republicans. Lurgan Loyalists are beginning to see that the NF is the only friend Ulster has from 'across the water'.

PORTADOWN NF

MORE and more Portadown Loyalists want to join the National Front. As if harassment from many local IRA supporters is not enough, they now find confrontation and conflict with the local RUC. The RUC seem to want to kick any patriotic feeling or fight out of the Loyalists in Portadown.

Many have now seen that only the NF stands up against tyranny and in justice. And that's why they are joining the National Front!

BUILD THE LOYALIST FREE PRESS

MANY LOYALISTS complain that no-one on the Mainland supports the Cause. This is not true. The National Front has always supported Ulster. However, it is true that many Britons do not understand the crisis in Ulster.

But our politicians are to blame for that! For years they have squabbled amongst themselves. Instead of denouncing each other, they should have united and created a powerful propaganda machine. But they didn't. As a consequence, we Loyalists have virtually lost the propaganda war by default.

To their credit, some Loyalists are now talking in terms of an *Operation UK* – whereby the Mainland would be saturated with Loyalist propaganda.

This is all very well. But – quite frankly – the Mainland isn't interested in the exploits of King William of Orange. The Mainland has no interest in negative religious bigotry. No true and just Cause can be built on hatred!

Therefore, the National Front has spearheaded *Operation UK* with this issue of *British Ulsterman*. But we want to produce more than just one issue of *British Ulsterman*. We need to produce another issue as soon as possible. And to do that will cost £200.

To save time, effort and money, the NF's welfare organisation has offered to administer the funding of *British Ulsterman*. If you want to see a mass of Loyalist propaganda, then just use the form below to send in your donation. **BUILD THE LOYALIST PRESS – DONATE TODAY!**

THE LINKS between Immigrant groups and the IRA are well known. So let's turn their Black fist into the White Power fist of the National Front.

Donate today!

DONATE...

I HATE THE IRA! And I want to help build the Loyalist press. Please find enclosed a donation of £ . . . p to help produce another issue of *British Ulsterman*. (All donations will be gratefully received. All donations will be acknowledged).

A TRIP DOWN MEMORY LANE

20 YEARS AGO
A
WARNING
LEFT UNHEeded
+
A cartoon
from the
Daily Express
March 3rd 1965.

When 40,000 immigrants worried Alec Douglas-Home

IN JANUARY 1955, the Cabinet agreed that the social consequences of the increasing flow of West Indian immigrants were sufficiently serious to compel the Government to take such action as was open to them, or at least to make their attitude on the matter clear to the public.

Commonwealth Secretary, Lord Hume, warned his colleagues that the influx of working class West Indians could become a menace unless it was checked.

The number of coloured immigrants causing so much concern 31 years ago? A mere 40,000. I wonder what Lord Home thinks today with the immigrant population in excess of six million?

EPPING NF LAUNCHED

JANUARY SAW the very first meeting of the Epping Branch of the National Front.

Thirty-five members met in a local hall to elect a committee to run the branch and to hear an address from NF Chairman, Martin Wingfield.

HECTIC

The elections saw Peter Turpin installed as organiser and Ron

Crisp as Branch Chairman. As with any new group the first few months are hectic with getting everything running smoothly the main priority, but Peter Turpin is confident that his committee can meet that challenge and his branch capable of organising a good campaign for a candidate for Epping Forest constituency at the next General Election.

MEETING SETS UP HITCHIN BRANCH

HITCHIN TOWN hall was the venue for a meeting to organise the setting-up of a Hitchin Group of the National Front.

An enthusiastic, mainly young, audience listened intently as Herts and Beds Regional Organiser, Alan Drury, detailed the horrific rise in street attacks and general violence by black youths in the town. He made it clear that the National Front must stand up and show the British people that repatriation was the only answer to the declining state of affairs in the country.

Alan Drury then called on all members of Hitchin NF to make a real commitment to leafletting, poster and paperselling in the town to well and truly put the NF on the map.

NF SOCIAL CLUB VISITS THE BARBICAN CENTRE

ON Sunday afternoon, 26th January a small group of National Front members from various branches went to a concert, in the Barbican Centre, London, by the London Concert Orchestra. The concert was held to commemorate The Charge of the Light Brigade during the Crimean War.

Amongst the works being performed were the first movement of Beethoven's Fifth Symphony, Thomas Arne's 'Rule Britannia' and Halligan's 'The Charge of the Light Brigade'. There were also works by

Sir Edward Elgar and Ralph Vaughan Williams.

The NF members did not distinguish themselves during the audience's participation in 'Rule Britannia' and at least one of our group had to be scraped off the ceiling when the cannon and mortar effects exploded into the auditorium.

A thoroughly enjoyable afternoon. If you would like to come on future trips of this type, then please send your name and address and telephone number to: The Social

Secretary, P.O. Box 41, Norwich, Norfolk, NR3 2AH.

THOUGHT FOR THE MONTH

And whosoever will be chief among you, let him be your servant: Even as the Son of Man came not to be ministered unto, but to minister, and to give his life a ransom for many.

Matthew Chapter 20, verses 27 and 28.

BRITAIN'S VIOLENT STREETS

MORE POLICE OFFICERS have been killed in the past five years than in any decade since the nineteenth century.

Last year, 15 were killed in England and Wales, and in London alone, of the 9,500 who were injured most were treated in hospital.

Muggers

THIS is Charles Murphy, a road sweeper from West Hampstead. On the 31st of January, as he made his way home he was attacked by 3 six-foot youths.

An eye witness recalls that Mr Murphy was knocked out with a karate-type kick and that the three men continued kicking him violently after he had fallen to the ground, before walking off "very casually".

The swelling and bruising on Mr Murphy's face was so bad he could not eat or drink for several days.

Detective Constable Roger Stott said, "I have never seen injuries like it in 20 years. Mr Murphy is a big strong man — such viciousness could have killed someone else".

A crowd gathered and missiles were thrown allowing the three men to escape.

Two police vehicles were damaged and two officers were taken to hospital with injuries.

Rioters

POLICE reinforcements were called into the St. Paul's area of Bristol on the night of February 7th after a police car was set on fire.

Mr. James Sharples, deputy chief constable of Avon and Somerset, said the patrol car had been set on fire after two police cars chased a car containing three youths suspected of threatening a householder at knifepoint.

When the vehicle was blocked in it reversed into one of the police cars.

Rapists

RONALD Williams was jailed for life five times on February 13th after being found guilty of a series of rapes.

Known as 'The Night Stalker', his trademark was to cover the face of his victims who ranged in ages from 19 to 55 with a pillow, holding a knife to their necks. After assaulting and humiliating them, he would demand money.

One woman he raped, a 46 year-old TV actress was so upset by her ordeal that she emigrated to America, while at least two others have been too afraid to return home.

INSTANT RESPONSE FROM LEEDS NF

LEEDS National Front hit back against the media smear-mongers in a local newspaper within 12 hours of the lies appearing.

The *Yorkshire Post* for four days from Monday 17th February dredged the depths of gutter journalism publishing lie after lie about the Leeds Branch of the NF; and when they ran out of lies they resorted to name-calling talking about the NF officials' "beer-guts", "squinty eyes" and "whispering voices".

TRIPE

Within hours of this tripe hitting the news-stands Leeds NF were out leafletting, with a leaflet written and printed that very day, telling the people of that West Yorkshire city that the Front were here to stay.

Local officials report that apart from making their committee overnight celebrities, the *Yorkshire Post*'s drivel has been dismissed by the people of Leeds as a total overkill. As one resident of Hunslet Ward told a NF leaflet, "I don't know where you blokes find the time. According to the media

you're organising football violence, you're pushing drugs, you're running prostitution rackets, you're infiltrating the Conservative Party, you're being trained by the U.D.A. and you're off causing havoc at Belgium football grounds. How come you find the time to come out here leafletting?"

Joking aside the National Front has lodged a complaint with the Press Council regarding the *Yorkshire Post* for the 17th, 18th, 19th and 20th February.

NATIONALIST BOOKS

50, PAWSONS RD., CROYDON, SURREY CR0 2QF

HOOURS OF BUSINESS
MON - FRI 10 - 6
SAT 11 - 4

Small Is Beautiful

SMALL IS BEAUTIFUL by E.F. Schumacher. (£3.30 including post & packing). An informative and easy to read book. Advocates a society whereby farms and businesses must be owned by the people — and not large corporations. Highly recommended.

NAME

JOE'S BRANCH IS BACK IN ACTION

JOE PEARCE'S home branch, Barking, held a very successful AGM on Monday February 10th. The new committee headed by NF stalwart Ian Newport as organiser and his assistant Ron Ferrett, includes Anthony Hume (Chairman), Mark Askew (Secretary) and Steve Woodward (Treasurer).

The meeting gave its immediate

approval of a morning of action in Barking on February 15th calling for the authorities to free Joe Pearce.

INVOLVED

Thoroughly involved in supporting the local branch was Joe's father Albert Pearce, while Joe's wife Gina told the members that Joe

was bearing up well to his imprisonment despite losing a number of privileges due to the antics of a couple of lunatics in Kent.

Assistant Organiser, Ron Ferrett ended the meeting by calling on all members to make a really big effort in Goresbrook Ward where NF candidates will be standing in the May elections.

Feb 15th: Barking High Street: John Ross reporting...

THE newly formed Barking Branch of the National Front held a very successful "Day Of Action" on Saturday the 15th of February. Over 50 members from Barking and other East London Branches held a mass paper sale and distributed thousands of "Jailed For Telling The Truth" leaflets while Directorate member Dave Gobell, with the aid of a loudspeaker, informed

local people about the imprisonment of Joe Pearce.

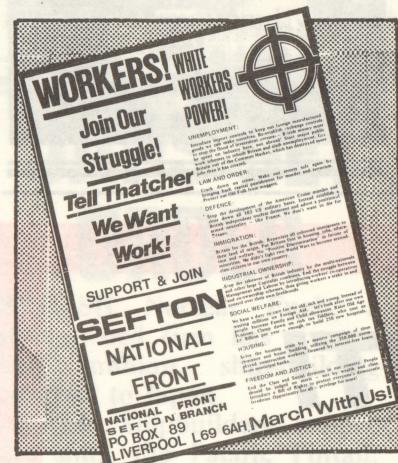

The day was livened up by the appearance of 80 Reds, including the so-called "Newham 7" complete with Pakistani flags! The Reds marched down from Barking Station screaming "smash the National Front", but as they arrived at Barking shopping precinct they decided to stay safely across the

road!

The sight of the scruffy Red mob only made local people more interested in what the NF were saying, and crowds of local shoppers eagerly bought dozens of *NF News*.

The "Day Of Action" was a great success for the new Barking committee with excellent local publicity and new members gained as a result of the activity.

NEW BRANCH FOR LIVERPOOL

THE growth of the National Front in Liverpool has led to the local

branch being split into two.

While Liverpool Branch remains near enough the same the Sefton Branch has been established to look after the area to the north of Merseyside.

Within days of the launch, the new branch was coming under attack from Allan Roberts, Bootle's Labour MP.

(*NF News* readers will remember that it was Mr. Roberts who rose to fame with his exploits in a Hamburg homosexual club. Apart from being led around the floor on a dog-lead he later had to be treated in hospital for injuries received at the club!).

The Labour MP claimed the Front had set its sights on Bootle because they expected to find discontent with problems of drug-pushing, unemployment, bad-housing and vandalism.

Allan Roberts

Labour Party supporters then pledged to organise workers to remove the hundreds of NF posters and stickers that cover the town.

OBITUARY

Sid Campbell who fought and beat the Race Relations Gestapo last year suffered the loss of his wife Jean in January. He reassures the National Front Chairman of his continued dedication to the Party.

Dear Martin,

I write this letter with a heavy heart for I have lost a loving wife and my mainstay in the long battle to save our Nation and everything my generation fought to save in 1939/45, she died at 7.30 a.m. on Friday January 10th.

A few days before Jean died she told me I must continue the fight and stay an activist in the National Front. I told her I would be more active. She knew she was dying.

In January 1974 a handful of NF members including my wife and myself formed a committee and by the time of the general election in that year we took the Medway by storm.

We put up two candidates with a complete campaign including two

large motor-cades with speaker vans. I stood for Gillingham, the media including Southern Television pounded my door day after day. We collected over two thousand

votes. Jean supported me then and at local and county elections, also in the 1979 General Election. She loved to attend our national A.G.M.'s and the Cenotaph Parades.

From the "Red Lion Square" and marches all over England she was at my side until I stopped her before the Lewisham march, I did not want her hurt by missiles. She attended the meeting last year when the Medway council cancelled our booking in spite of the fact she was ill. We have lost a true nationalist. At the age of 61 years Jean lost the battle with cancer in spite of her determination to win, and left me and her family and our many friends to mourn our loss.

Yours sincerely,

Sid Campbell.

If you have room in the paper would you thank our members for their support during my trial last year.

ASHES TO THATCHER

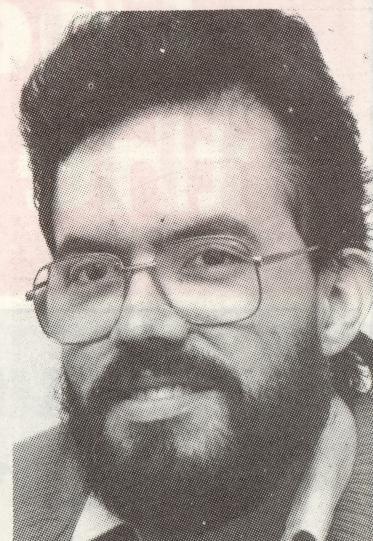

CHIEF INSPECTOR David Jordan of Finchley Police refused to allow Enfield and Barnet National Front to burn the Eire Tricolour outside Mrs Thatcher's Conservative headquarters in the borough.

The flag-burning was to be part of a demonstration in Finchley against the Anglo-Irish agreement.

OUTRAGE

Enfield NF spokesman, Paul Nash, told local reporters "It is an outrage that Her Majesty's government can come to an agreement with a foreign power which gives that power control over British affairs on British sovereign territory. Ulster is not a limited company to be sold off when it is no longer profitable. It is an integral part of the United Kingdom and to give it away, or to give any foreign power control over it, is to betray the trust of the British people.

The banning of the flag-burning by Finchley Police on the grounds that it might upset Irishmen living in Finchley, didn't stop Enfield and Barnet NF making their protest. After the demonstration outside the Tory office in Ballards

Paul Nash, Enfield and Barnet Organiser

Lane a letter stating the NF viewpoint was handed to the local chairman of the party. The flag was then burnt in a private garden and the ashes sent to Mrs Thatcher care of the House of Commons.

BREAK THE BLACKOUT!

THE NATIONALIST viewpoint is boycotted by the Establishment press. There is a conspiracy of silence. News stories are suppressed. Readers' letters are not printed.

Once this used to be a worry. But now we have a Nationalist paper to give our own point of view.

However, while the Establishment press gets commercial advertising revenue from multi-national corporations and the financial world, we depend only on the fervent determination of our supporters.

Please give as much as you can, and send it to Nationalist Publications, P.O. Box 41, Norwich, Norfolk, NR3 2AH.

Help Spread our Message

PLEASE find enclosed a donation of £ . . . p towards *National Front News*.

NAME

ADDRESS

The Battle for the North-East

Labour attack NF Organiser

A PERSONAL attack of the most vicious and evil nature has been made at a full meeting of Newcastle Council by a Labour Councillor Nigel Todd against the National Front's North-East Regional Organiser Colin Todd.

The Labour Councillor claimed that Colin Todd was a paid full-time official of the National Front who had been imported into the area to build up the party.

The National Front official took great pleasure in replying to the allegations, and on the front page of the *Evening Chronicle* informed its readers that he was not imported. "I was born in Wallsend and far from being a paid organiser I have to use my own dole money for NF purposes. This outburst from the Labour Councillor is just sour grapes over the acquittal of four members of the National Front on trumped-up Race Act charges."

Although only 23, Colin Todd has already served his country in the Royal Navy on HMS *Nurton*, HMS *Bulldog*, and HMS

Colin Todd, North-East Regional Organiser.

Hecla with all his tours of duty taking him to Africa, the Caribbean and the United States. Maybe the Labour Councillor would let *NF News* know what he has done to serve his country?

NF blitz on Tyneside Schools

EDUCATION WORKERS on Tyneside want racist remarks and jokes outlawed in their schools.

Keith Hodgson, Chairman of the Northern Region Education Alliance told the *Evening Chronicle*,

"We are asking teachers to help us make racism in any form totally unacceptable. People in every workplace hear racist remarks and jokes and just tolerate it. We want to make that sort of behaviour beyond the pale".

Hodgson's remarks had been

prompted by a successful leafletting campaign of Tyneside schools by the North-East region of the National Front.

NF organiser, Colin Todd, told the same paper,

"We have handed out thousands of Young National Front leaflets both at Tyneside schools and on the streets. We believe that Marxism is getting a hold in our schools and we are doing what we can to combat it".

NF IN RADIO DEBATE

LISTENERS in Stockton, Darlington and Middlesbrough heard an hour long debate on Saturday February 8th as Colin Todd again took on another Labour Councillor.

This time it was Stockton Councillor Bob Pitt who entered a debate on Race Relations, broadcast by Radio Tees, against clear Labour Party guidelines "That no member of the party should give publicity to the National Front and its views by engaging them in public debate". The programme proved fascinating with, for 60 minutes, the two party officials locked in discussion of whether Britain should have the role as a multi-racial society or not.

Colin Todd's clear concise arguments won over many recruits to the National Front and a flood of calls to Radio Tees after the programme showed the subject under discussion had provoked a lot of interest.

NF GROWTH IN DURHAM!

A DURHAM Community Group have asked the County Council for funds to combat the growth of the National Front throughout the county.

The move follows leafletting in the town centre and nearby schools and reports of 'secret meetings' by the NF in the area.

"We are worried that people might agree with the National Front publicity and that their policies on unemployment might appeal to young people with time on their hands" said the organiser of the group, the none too Anglo-Saxon sounding Ms. Hope Liebersohn.

RECRUITMENT PUSH IN CONSETT

A NATIONAL FRONT recruitment drive in Consett has led to left-wing groups banding together to form a 'Special Council' to attempt to stem the growth of the party in the town.

Organiser of this 'Special Council' is one Sean Lee, who said that the format of the council followed on from the committee in the town which ran the 1985 International Youth Year. He said the council was designed to promote friendship amongst young people of different races.

Consett National Front members

out in the town in force during February selling papers and giving out leaflets. Commenting on the newly formed 'Special Council', an NF spokesman said,

"We fully agree with promoting friendship between races. British people in Britain should be friendly with Asian people living in India and Pakistan and West Indians in the Caribbean, if they want to. We're just against them taking advantage of that friendship and coming in their millions to live in Britain."

NATIONALIST BOOKSHOP

THERE IS always a wide selection of books, records and other National Front merchandise at the Nationalist Bookshop.

Helpful staff will look after your requirements and the special student liaison officer will be pleased to help those studying Politics and Economics at university or college as to what books and pamphlets can be of special use.

The Nationalist Bookshop is at 50, Pawsons Road, Croydon, Surrey CRO 2QF. The nearest B.R. station is Selhurst. Opening hours are from 11.00a.m. to 5.45p.m.

JOIN THE NATIONAL FRONT!
